December 3, 2015

Greetings,

This year's Annual Meeting has come and gone. All those in attendance had a very nice time. We must have been having fun; it seems we hardly made it through the agenda. (Did we actually make it?) We had to pack up since there was a wedding reception next up at Terry Hills. We did make it through the essential items. On the brighter side, everyone should be relieved to see the abbreviated notes from the meeting!

One of the key announcements made at the Annual Meeting was for the dates for next year's outdoor season. So as not to keep everyone in suspense here are the critical dates to place on your 2016 social calendar:

National Warplane Museum Series of Outdoor Free Flight Meets for 2016

Spring Opener:	May 7 & 8
Spring Opener Rain Date:	May 14 & 15
ESSFC:	August 12, 13 & 14
Pirate Challenge:	August 26, 27 & 28
Great Grape Gathering:	September 9, 10 & 11

Our next official get together will be the Planning Meeting. Naturally, the main topic of discussion will be the above noted flying events. This will be your best chance to have a say in what goes on at the flying meets.

As in years past, our meeting will be hosted by Brad and Ruth on the first Saturday in January. That means this year the meeting will be held on January 2, 2016. Plan on arriving around noon. Given the potential for harsh weather this time of year, it is all the more important to let our hosts know you are planning on attending. That way if the weather looks too rough they can let you know the meeting is postponed. Although the focus is on planning, there is always time for a good measure of non-planning aviation talk. As usual, we enjoy lunch with the entrée and most everything else provided by home team. If you would like to bring something such as salad, desert or a drink to share, check in with Ruth. Maybe we won't over do the deserts like we always do!

Do let Brad or Ruth to let know you are coming so they can have a head count and coordinate those all-important deserts and sides. The phone number is [\(585\)765-9363](tel:5857659363) while the email is [windwhip47@aol.com](mailto:windwhip47@aol.com). Bring your latest modeling efforts or questions. Spouses and interested friends are welcome too. Here is the address in case you forgot or are attending for the first time:

60 Lake Ave.

Lyndonville, NY 14098

### Indoor Season

While at the Annual Meeting, Jim DeTar reported that the Indoor flying season was off to a good start. Our next session is scheduled for December 5. That is coming up real soon. Flying is from 2 to 5 PM. Additional dates and particulars are posted on the web at [wnyffs.org](http://wnyffs.org) For other questions about the indoor sessions, send Jim an email at [jrdetar@yahoo.com](mailto:jrdetar@yahoo.com) .

Be sure and check out the recently added photos from the Pirate Challenge. We experienced excellent weather and good flying. Note that separate articles for contest results and a contest report (with the photos) are included on the web.

That's all for now. Enough of the turkey carving, back to carving the balsa.

Sincerely,

Mark C. Rzacca, WNYFFS Thermal Journal Editor
